

Four-Way Valve / Air Pressure Valve

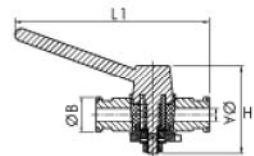

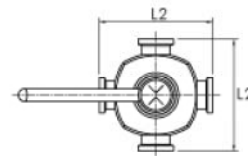

Sanitary Valves

Working Temp.	-10°C~130°C
Actuator	Manual
Seal Material	PTEE
Body Material	316L
Connection	Clamp Joint
Surface Finish	Ra≤1μm
Indicator	Line grooved on handle shows connected status when covered
Application	User friendly for chromatographic system

Four-Way Valve

No.	A	B	H	L1	L2
1507199-000050	9.4	25	63	137.4	80
1507199-000775	7.75	25	63	137.4	80
1507199-000100	22.1	50.4	107	224.0	150
OEM/ODM	25	63	137.4	80	

Air Pressure Valve

- Adapt to products exposed to the air.
- To support seal stopper by pressing spring.
- Supreme seal o-ring with EPDM material.
- To press spring with opening pin & nut.
- Applying 316L material for.
- To fix body with clamp for user-friendly.
- Ventilation opening, spring is reset to close the design can be applied to CIP system.
- Suitable for evacuation of tank, tubing and other related equipments.

Air Pressure Valve

SIZE	L1	L2	D1	D2
1/2"	30.0	36.2	50.4	26.0
